Something to do at home - Make a model outer sarcophagus (coffin) of Djeddjehutyiuefankh

Djeddjehutyiuefankh was a priest who lived in Egypt about 2780 years ago. His mummy is inside three coffins (sarcophagi). You can use this template to make a model of the largest coffin. It is decorated with a model of the god Anubis in the form of a jackal, and the god Horus in the form of falcons. What other decoration can you see on the sarcophagi?

Instructions

- Cut out the solid lines. 
- Add your own decoration/colour in.
- Fold along the dotted lines to make a box.
- Cut off the falcon and jackal tabs. Fold along the dotted line to create tabs, and glue or sellotape them to the top of the coffin.
- Finally glue or sellotape tabs to finish.
- The lid can be tucked in so you can open and close it.
- For another project why not make a mummy to go inside!
